Others TBA

Also note that by Officially Announcing the release of these currencies are to be used and put into circulation by mechanisms and Official Exchanges ONLY to be announced at a later date. The Digital Reserve and UDCRF will also be assisting various Nations and Entities utilizing the REVO, being Gold & Asset backed, as a backing of value for CBDC's (Central Bank Digital Currencies), this decision is based on the fact that ALL Nations do and should have the right to issue their own currencies, and now using the latest blockchain technologies, we are offering our technology to Nations to utilize and have access to safe and secure technologies. Rather than previously offered crypto currencies and technologies that are not necessarily the best technologies to use for such purposes. Maybe the use of XRP and Ripple Networks for instance may not be the best choice for such a powerful venture as a Nations Digital Currency in replacing its fiat predecessor. Other Nations are looking at other crypto currencies and technologies falling into the same category of unsuitable and not fit for such purpose.

We wish to also make it clear that we are NOT aligned or part of any other claims or statements using terms such as "QFS" (Quantum Financial System) or The Great Reset. These terms are known by our Group but we are NOT aligned with such groups using these terms, although these groups seem to be in lockstep with OUR timing on releasing dates and statements. We have been approached by Groups making these claims but we are stating "For the Record", we are not with or aligned with these groups and we should not be mistaken for them in any way shape or form.

We intend to help Nations and Humanity to have access to Asset Backing & Gold Backing that has been Donated and Freely Placed with the Digital Reserve as the Asset & Gold Backing for Revo and ALL Currencies issued by UDCRF under the Exclusive License from the Digital Reserve for this purpose. Therefore as stated above REVO will be offered Officially to back CBDC's in the near future to Nations that meet our strict guidelines and processes.

CONSIDER THAT REVO & OUR OTHER CURRENCIES ARE OFFICIALLY LAUNCHED AS OF THIS DATE: "7-7-7" (7-7-2023) (7TH JULY 2023). END OF OFFICIAL ANNOUNCEMENT.
